When you are in labour you will follow the instructions via the PDF sent previously.

I, _____ (Client's Name) understand and acknowledge that in accordance to Canadian laws and bylaws, choosing to encapsulate my placenta is not intended to prevent or treat any physical or mental diseases, ailments or symptoms and that I am choosing to consume my placenta for my own personal beliefs, whether it be spiritual or cultural.

I understand that my placenta has been handled and encapsulated according to Blood Borne Pathogens and Province Food Safety and Handling standards, and has been cleaned, cooked, dehydrated and put into pill form in a sanitary and sterile work space.

Upon receiving my placenta capsules from my placenta specialist, I waive any and all rights to hold the specialist responsible for any undesired effect of consuming the capsules. This may include an oversupply in milk, hormonal shift, anxiety or sleeplessness. These side effects are rare, but have been reported.

I agree to contact my placenta specialist immediately if and when I experience any of these side effects. My specialist agrees to provide follow-up phone calls up until 6 weeks postpartum.

I do not hold my placenta specialist responsible or liable for any transport mishap that is beyond their control (ex. car accident or detainment), and understand that I am choosing to have the specialist encapsulate my placenta in the specialists' home. I put full trust and acknowledgement that it is being handled in a sanitary and safe environment. I put trust and faith that my placenta specialist has been training correctly to prepare placenta remedies.

Universal precautions for sanitizing are the same with each client. I understand that upon receiving the capsules, my placenta specialist is no longer liable, including but not limited to any other person(s) ingesting my own placenta capsules.

Services and fees are for the preparation and encapsulation of your placenta, not for the sale of the pills.

Once you are provided your capsules/package, no refunds will be given, even if the capsules are not ingested.
